

On the way into the visiting area I saw some dogs. I found out later they were called **Passive Drug Dogs**. If a visitor tries to bring illegal drugs into the prison, the dog will sit down beside the person!

VISITING AREA

That person may not be allowed to go on with their visit.

They may be allowed to have a closed visit where they have limited contact with the person they're visiting.

Some things we weren't allowed to bring in at all I had to hand in my mobile phone and even Mandy had to leave her stuffed toy behind.

We were able to pick them up after the visit was over.

I'll keep him safe for you pet. What's its name?

Mister Bun.

We waited for dad in a big room full of tables and chairs that were fixed to the floor like in a fast food restaurant.

It was Mandy who saw him first.

DADDY!

And do you know what?

He just looked the same...

...as he always did!
